### Current News

The September Club meeting may happen this month. It will be when the flying field get opened. I will let you know when this happens. Looks like we may be able to have our field opened this month. The area fire department has gotten authorization to perform a controlled burn, to remove all of the tall grasses in the area. It is supposed to happen this month (September). Once this happens, we will be able to use the field. At that point, a club meeting will be scheduled.

Because of the closed field, there haven't been any flying activities, news, projects, or events, therefore, I will have very little to put in the newsletter.
